WHO WE ARE

During the COVID-19 pandemic, healthcare workers have taken care of us, our loved ones and our communities through these hard and isolating times. The majority of people support them and value the immense sacrifices they've made during the pandemic during the last years.

While the rest of the world is able to move into a "new normal," especially at the last quarter of 2021 the healthcare community remains under intense strain. Despite this, they show up to keep us safe - to have our backs.

We, at BRIDY , are unconditionally thankful to them for taking care of us during a historic moment in time - we are honored to be a part of their lives.

We're also focused on making impact on health workers life -making an impact is at the center of our mission and our business -by supplying them with the best quality scrubs to take care of their wearing while they take care of our community health;

Since #sharing is caring is our favorite slogan , we are trying to bring joy to our community , whether by gifting our dear scrubs to those in needs , or by monthly gifting our followers to remind them that we are constantly trying to take care of them .

GIVING BACK TO OUR CLIENTS

Our "GIVING BACK TO OUR CLIENTS " initiative is integral to improve the lives of healthcare professionals and remind them that we take care of them.

"GIVING BACK TO OUR CLIENTS " initiative donates scrubs to our followers on a monthly basis ; a draw is displayed publicly every month that shows the winners .

A count down is continuously displayed at our site , that shows when the next draw will take place.

By providing clean, high quality scrubs to these individuals, we know we can empower them and improve the quality of care they provide.

As always , we take care of those who take care of other's life .
